CB Multi-Item Manager An Easy Solution to Manage Multiple ClickBank products with a Single ClickBank Account! CB Multi-Item Manager With Transferable Master Resale Rights !! ClickBank allows you to sell around 50 items in one account but there is one important restriction when you promote your products by recruiting affiliates or JV Partners:- You can only provide one link (or landing page) to your affiliates per account. Unfortunately, you cannot specify individual affiliate links for each item. For example, if you want to promote 3 products with affiliate partners, then you have to create 3 Clickbank accounts for each product and provide affiliate links individually. Now here is a cheap and easy solution for you! Using CB Multi-Item Manager Script, you will be able to create any number of affiliate links that can be used in a Single ClickBank Account. Here is how the new system works:- CB Multi-Item Manager (CMIM) is an easy to use Affiliate management program for ClickBank Merchants. List of all items added to CMMI All items will be promoted with Separated Affiliate Links in a SINGLE ClickBank Account. Add a New item to CMMI Just enter an item code, title, product website URL and CMMI will create a unique affiliate link. Admin Setup Page You can change your Admin ID, password, ClickBank ID etc here. Just copy and paste the generated script URL (in red color) into ClickBank Control Panel. Here is what you will get in this package * Script Installation Wizard - This Desktop Application will install Perl Scripts into your webhost. No manual uploading, CHMOD setting etc is necessary. * Installation Guide and Quick Start Guide * Website with Cover Graphics and screenshots to use. * Transferable Master Resale Rights. * You have full rights to Resell this Script for any price you like. You can sell it in membership sites, eBay, or anywhere you like.
