Master Resell Rights Included!... Powerful & Proven Tactics Show You How To Build Your List & Keep Your Customers Buying From You Again And Again... Anytime You Ask Them To!... From The Desk Of: Tracy Yates Date: 03/16/2006 Look... I want to to take JUST 30 SECONDS to do little test that you will be glad to take part in. (It takes no longer than 30 seconds, I assure you). Stop for a moment and think about your business. What would be the ideal situation that you could wake up tomorrow morning and find yourself in? (Feel free to pull out that calculator and have fun with the numbers, I don't know any marketer that doesn't secretly do that one). More specifically: How big do you believe your list would have to be to reach that goal? Next, think about how your business is performing right now, as you read this. Is it pulling in as much profit as you'd like? (Calculator time again). Keep those two pictures right at the front of your mind. Now you've done that little exercise I have some good news, and some bad news for you. The Bad News First... The bad news is, that the difference between what you first imagined your business to be like and what it's actually like, if you think about it, is probably pretty huge. To the tune of 10, 20 even 30,000 subscribers I'd bet. Was I close? Those are big numbers indeed, big numbers which could no doubt take you years to build. And now for the good news. You can throw out your pre-conceptions about list building and how big your list needs to be for you to be a success. It doesn't matter if you've got a list of zero right now or how big the differences between what your business is looking like now and what you visualized as success. Let me explain how you can pull in a list of subscribers that will outperform and out respond a list 7 times the size. It's easy when you know how.
