Discover How You Too Can Launch Your Products To Millions Of Hungry Customers Through The Power Of Joint Ventures (Done Correctly) From The Desk Of: Jeremy Zimdars Date: Monday, January 18, 2010

When I first started out in online business (almost seven years ago now) it always intrigued me to see marketers go out and pull a circulation of half a million potential views for their products just by getting themselves ten or fifteen deals with other marketers. Half a million targeted, almost guaranteed to be interested, ready to buy viewers, customers even. Wow. Imagine what that would do for your business. (This is usually the point at which I pull out my calculator and start playing with numbers looking at the earning potential, I dont know any marketer that doesnt do the same, so feel free!) So how did they do it? Well thats what I wanted to know too, especially as I was on a budget and didnt have much cash to hand, meanwhile they were doing all this for free. So I went around and bought courses, bought info products, bugged people in the know with all sorts of questions. The methods they were using all seemed suspiciously similar. Theyd say to me, its easy. Go check out Google (or Yahoo, and whats now known as Overtureback in the day) and search for Online Business. Then all you have to do is find the people who are successful, and e-mail them with your offer. Something wasnt right here. What was it? Think about it for a moment. If these marketers are really selling thousands of their How to Joint Venture products, then how many people are contacting everyone on the first 10 pages of these search engines! They must be getting hammered with e-mails. I gave it a shot anyway, heres what happened. All of these list owners were replying to me with Look, you have a good offer, but since these products started popping up telling people to just use search engines and contact the successful, Ive been inundated with more offers than I could handle in a lifetime. (Oh and trust me when I say that was was one of the kinder responses stating the same point). It became obvious to me what the problem was. These marketers may have used these tactics when they first started out, but it just didnt work anymore. This method was saturated (and this was almost seven years ago) yet no one seems to correct themselves or come up with alternatives to such an outdated technique, and how can they afford not to when half a million or more circulation for a single product are at stake here? Something had to change, and it did: It took me

seven years, it took me more than \$38,000 to hone a new method for successful joint venturing, not to mention many many hundreds if not thousands of hours sitting in this very chair that I write to you from now, but finally, I did it, and now its all yours. Check this out.. (Hint: I didnt even contact a single big name marketer to pull this off or pull random names from search engines to make this work) Just Look At What Youll Learn... How To Find Real JV Prospects. We all know that a couple of simple ads here and there to large, well built, targeted lists can shove thousands, even tens of thousands of dollars into your pocket per mailing. Well show you step by step, exactly how we go about securing no less than twenty of these large scale joint ventures every single time we launch a product with very little effort, whilst others having trouble securing even one. An Almost Endless Supply of Prospects. Overcome the hassles and ethical issues of having to cold call and drop in on prospects unannounced, only to be told they dont want to hear from you. Theres a little known back door that were sneaking through as you read this, pulling in scores of immensely profitable joint venture deals whilst the majority fight over the same 20 people. The one and only way to quickly get in on the ground floor with big joint ventures, even if its your first day in online marketing. You may think you have nothing to offer in return for the circulation of your ad to tens of thousands of targeted buyers. Youd be wrong. Thankfully for us, only a few know of this powerful method, leaving you plenty of space to get in on this before the crowds flock to it. 12 Mistakes Of The Joint Venture Newbie. Ill show you the exact reasons that joint venture newbies get denied over and over again, when they could quite easily be circulating their products to many thousands, if only they knew what our decade + of experience tells us they were doing wrong. How to know before approaching anyone whether or not theyre going to accept your offer. Dont waste your time by approaching people that have no interest in your deal. We have devised 7 easy to replicate methods over the years that will allow you to judge immediately whether your prospect is going to accept you or not. How to build and use a powerful information network. The future is always bright for your business profits when you have a group of thirty or forty people with these valuable lists ready to promote for you on the launch of each of your products. Whats more, theyre easy to find. Well show you exactly where. (Best of all this only takes ten minutes to do). Imagine the profits at having that type of promotion power at your disposal. Its all yours, right here. 5 ways to increase your acceptance rates by 85. Tailor your deal to your joint venture prospect and start seeing your ad sent to more of these hugely profitable targeted lists every single time you launch a new product. Its easy to hit the magic 85 mark if you have the right information. Well show

you how to get it for free in a mere three minutes of your valuable time. Learn to spot what your potential jv partner wants from your deal before you even meet. Imagine being able to present your prospect with everything they wanted as soon as you make first contact. Your response rates and acceptance rates will go through the roof, not to mention they'll start talking about you to their contacts, and we all know how powerful word of mouth is. 2 techniques to ensure that the joint ventures you make today, will be open to you every single time you launch a new product. Imagine succeeding in gaining just five separate joint ventures, each list containing 20,000+ hungry customers ready to buy your products. That's a real money maker, but it gets unimaginably profitable when you add another five of these lists every single time you launch a new product. We're doing that right now, as you read this, and we'll show you how. Learn the whys of Joint Venturing. It's time to stop buying products that only tell you how to do stuff that become useless when everything changes in a few months time. It's a waste of your time and money. This guide however will show you why everything works, benefiting you not just on the first read, but for life; allowing you to adapt to business situations that we all know change very rapidly. 2 JV Approach Methods That Almost Guarantee You'll Be Seen. Being noticed instead of thrown in the trash on first contact could mean the difference between 30,000 circulation for the launch of your products, and going home with nothing. Picture the sales of your products if you successfully made just ten of these deals. Learn to see how your offer looks from the perspective of your jv target before you've even contacted them. If you know what they want before you contact them, not only are they going to wonder how you managed it, but they're going to sit up and listen, increasing your chances of an all important sealed deal. 5 ways you know if you're going to be accepted before you even make first contact. Most marketers I meet are wasting time trying to complete joint venture deals with specific people at specific times. Are you? Show me the deal, show me the target, and I can tell you within 2 minutes with a 95% rate of accuracy whether you'll get a yes, or a no. I'll show you exactly how I do this, and how you can put it to good use too. Learn to spot the best moment to send your joint venture prospect an offer. There's a time and a place for everything. JVs are no exception. Did you know, there are specific signals that you are receiving from your potential prospects that should immediately tell you when the best time to approach them is, maximizing your chances of success. Can you see these signals? If not, I'll point them out to you so that you can start taking advantage of them right away. Why you're ruining your chances of acceptance when including your product as part of a JV deal. 9 out of 10 JV offers I receive include products and services that mean

nothing to me. This also means instant denial. Ill show you how to avoid this with some quick and smart thinking. One sneaky little trick that will get your joint venture prospect talking to their contacts about you, even if they refuse your deal. Think about it. If your prospect has lists or resources reaching into the multiple thousands, its highly likely their contacts will too. Its easy to get your name spread through word of mouth when you know how. Well show you how. Full start to finish tried and tested joint venture templates. Proven methods of the successful joint venture.
