SORRY FOLKS I'VE BEEN CONTACTED BY THE OWNER, THAT THE MRR PRICES FOR THIS PACK IS $79 , THIS IS THE MINIMUM PRICE FOR THE MRR LICENSE, I am not much of a copywriter. I am designer and a programmer. So here's what this page is all about... What I have is a new mini-site template that is different from what you normally see. It's designed to give you that professionalism look combined with a powerful corporate presence. Like it or not, people are tired of the typical header-footer mini-site design. I am tired of it. They don't trust it anymore. The minute they see you typical header, they'll be reaching for the litte "x" button on the top right of their browser. They trust Facebook, Twitter, LinkedIn, Google... And take a look at other websites that actually do sell something... 37Signals.com, FreshBooks.com, Mint.com, GoodBarry.com, BlinkWeb.com... Even huge online marketing gurus are changing the way they sell products online. Just take a look at Affilorama.com, ShoeMoney.com, SuccessChef.com, StomperNet.com... Is your mini-site anything like theirs? That's why I created the Mighty Minisite template... To give you that "dependable" look and gain the trust of your website visitors immediately. Though using a mini-site template, as an online enterpreneur myself, I understand that you may want your mini-site to look different from other people's. So I provided you with options... Two Different Layouts Styles - With or Without Sidebar I know at times marketers just want a simple top-to-bottom layout without any distraction. This same mini site design is also available without the sidebar. In fact, you can toggle between the two easily, simply by applying the "full" class to , like this . Comes In Two Different Colors - Blue and Red Don't like the blue - use the red. The red is suitable for a fierce, aggressive look. And with the right background, you can also project a cuddly, lovable image. Use which ever you want according to your project. You can choose to use either of these color designs. Easy Styling with CSS I really thought through all the things that you may want to have when designing this mini-site template. First of all, , and are already styled. You can straight away use them for headlines and sub-headings. On top of that, using will simply brings up the nice blue text box, with a huge double quote in the background. Using will create a nice Johnson box for module details, bonuses or any other info. And with lists, instead of the boring square or dot, you can create a nice YES or NO list, where the bullets are either a cross image or a check image. Just use or Transform a normal, boring list to a beautiful list with graphical bullets Transform a normal, boring blockquote to a beautiful box with background graphic. Transform a normal content into a strong Johnson box. Just apply class="module" to the . Customizable - Edit Header and Use Your Own Background There two easy ways to customize your mini-site. From the Photoshop PSD source file, you can edit the header by applying your own logo and text. Another method is by applying your own background graphic. Mighty Minisite was designed to allow the users to use any background graphic. Use a grunge theme to make a grunge website. Use a sky theme to make a happy website. Basically, it's all up to you. Separate Photoshop PSD Source Files Included I can just give you the main PSD source file, but I know that Photoshop can be a challenge for some. So I've split those PSD files into several pieces making it easier to use and to understand Instead of one big PSD file, you will get PSD like header.psd and orderbutton.psd.
