Creating a DVD, Blu-ray or AVCHD Should Be Fun, Not Confusing. At least, that's our philosophy. There are a lot of rules (called "standards") when making a DVD, Blu-ray or AVCHD, and it can get downright confusing. Our approach is to let the software handle that, and let you do the fun part. Get creative and edit your videos, add transitions, subtitles, and create custom menus or use pre-made menu templates. TMPGEnc Authoring Works 5 specifications: Download Size: 265840 KB Minimum Memory Required: 1 GB or higher Internet Access: Required for periodic license validation.
