Dear Money Maker, Do you get angry with all the empty promises online that seemingly always under-deliver? Do you get that festering feeling of disgust every time you go buy some product or take some advice just to find out the person has no idea what hes talking about? I admit it. I had experienced all of the same frustrations trying to make money online that literally had me pulling out my hair wondering if success online was ever really possible. I eventually cracked the code to online success. In just a minute, Ill share with you some of what I did to make a multiple six-figure income in almost no time. But first Before I share the methods, I wanted to share with you something that is even more important than the methods to striking it rich online and that is mind set. See, before I was successful online I bounced around. You know, wasting too much time on forums, reading countless eBooks, and keeping up on the latest Guru gossip. Then I would get those annoying questions from friends asking, 'So hows the 'online thing' going? These questions always seemed to come in a half sarcastic tone that would just make my blood boil inside. But I would keep cool in front of them and play it off with something like, Oh, its unbelievable. Or other phrases that would allow me to answer the humiliating questions, while being honest and pretending like it didnt bother me. Sound familiar? I would sometimes experience depression as I felt like a caged beast at my cubicle from 9-to-5... almost like I was an adult that needed babysitting to make sure I was getting my work done. Deep down I knew that I could achieve my dreams of six-figures online if I could just find the missing link. Thats when it happened. I Discovered The Common Success Factor Of Virtually All Rich People! And that is the You Factor... Thats right.
