

Dub Alchemy Apple-loops (aif)

[DOWNLOAD HERE](#)

These 8 construction-kit loop sets (4 in D minor at 71BPM and 4 in A minor at 80BPM), each represent a unique dub arrangement. Every loop set contains 4 drum mixes, 4 full mixes and the component samples for each mix, averaging around 25 loops per set for a total of over 200 loops! The consistency of the loops in key and BPM allow the producer to dive into the grimey depths of dub mixing with ease and create unique sounds and arrangements with this wide sonic palette. Available in 24 bit Apple-Loop (.aiff) and ACIDized (.wav) formats.
