

# Euro House Vol 1 (acid/wav/midi/rex)

[DOWNLOAD HERE](#)

'Euro House Vol 1' is the first in a brand new series from Producer Loops, bringing you FIVE incredible Construction Kits inspired by the freshest House sounds to conquer clubs across Europe. With both commercial and underground appeal, as well as a professional feature set, this is a must-have sample library for any serious House producer. Combining the most uplifting progressions with the highest energy, club-shaking sounds found in today's European House music, 'Euro House Vol 1' is a hugely versatile multi-format construction kit sample library that's set to fuel your music productions and make dancefloors shake!

**The "Euro House" Series:** This pack kicks off our brand new and hugely original and inspirational "Euro House" Series which focuses on delivering current, club-dominating samples and loops.

**A & B Sections:** You'll find two complete sections in each kit, allowing you to create distinct verse and chorus sections, or mix and match elements from each section to construct new variations.

**MP3 Demo:** Make sure you check out the MP3 demo to hear the cutting edge sounds on offer, and read on to find out more about the complete feature set of this pack.

**MIDI Loops:** Like most other Producer Loops releases, this pack features melodic and rhythmic MIDI loops allowing producers to use their favourite synth or sampler sounds with the phrases included. Unlike pre-rendered audio loops, MIDI can be scaled to any tempo and played back at any pitch without glitching or artefacts.

**One-Shots:** Included with each kit are percussive one-shots, allowing you to construct drum kits in your favourite sampler to create new beats, patterns and fills to augment the included content.

**Dry & Wet Versions:** Where possible, dry and effected versions of loops are included, allowing you to create your own FX mix should you prefer.

**FX Tails Included:** As with most Producer Loops Construction Kits, FX tails have been included where possible, allowing you to end a phrase with the natural decay of the loops reverb or delay tail, instead of having to resort to a fade or an abrupt stop.

**Vocal Ready:** These kits have been specifically written and mixed to leave room for lead and backing vocals for a commercial, radio ready sound.

**SSL Technology:** All individual parts and main mixes have been processed using state of the art outboard SSL technology, delivering an extra polished mix and the highest quality sound possible.
