Mobile Site Bot is a software program that will help you quickly and easily create Web site after Web site by using the built-in templates or you can create any number of templates to build your pages from. And these sites will be completely mobile device ready. Meaning: * Save the time, expense and trouble of creating multiple sites for different devices -- create it once and it works on multiple devices. * Save the time, expense and trouble of maintaining multiple sites for different devices -- change it once and its changed for multiple devices. * Stop reinventing the wheel, quickly create Web page from pre-defined templates and use them for the Web pages throughout your Website or on as many websites as youd like. * Make all those sales that your competitors cant because they dont have mobile ready sites. The total number of mobile devices in the world exceeds the number of desktop and computers you must be thinking mobile. ABI Research published a report recently on that in the U.S. the mobile market will reach \$5 billion in 2010. And note that 91 per cent of mobile users have abandoned their purchases because of problems with the website they were trying to use. Mobile Site Bot will help you to breakthrough the barrier of mobile device websites and deliver your content, messages, and promotions to mobile users everywhere and get yourself a piece of those billions -- after all, your competitors arent! You Can Capture More Than Your Share of Mobile Users and . . . Get a Deal That Will Stop You In Your Tracks Creating mobile-friendly content has quickly become a must have by those who want to be successful in this decade. But to have a someone create you a mobile friendly website can cost you \$1,000 or more depending upon the size and content of the site. And thats for just one site, if you have others then youll have to pay that for each one. There are some free solutions but they are incomplete, generally require a level of technical knowledge you wont have and, even after all that, require a lot of time to setup for each site. Do you really have the time and desire for that? Get ahead and use this software to start getting mobile content out and start profiting!!
