"Who Else Wants to Laugh At The Duplicate Content Penalty....All The Way To The Bank...?" From: Azmey Re: 100 Unique Content Created by DuplicateByeBye Wordpress Plugin Saturday, November 20, 2010 Dear Fellow Internet Marketer, Do You have auto-blogs or a blog that you post other peoples content to, but get sick and tired of your content not ranking and costing you money? Well, I was sick and tired of it at one time too... But... I decided to do something about it! You see, I like to automate as much of my income as I possibly can. Therefore, I set up a ton of blogs that pull content automatically to get a ton of visitors which in turn puts a nice chunk of cash in my pockets every month from things like Adsense, CPA, affiliate programs, and adding people to my list. The problem I was running into is that tons of other people were doing the same thing. The content that was being dripped to my blogs was also being dripped to 100's of other blogs and I started to see a decline in my rankings and traffic because the same content that I was using was on tons of other sites as well. **PROBLEM SOLVED** Personally, Im the worlds biggest techno moron that you will ever meet. Luckily for me though, a good friend is a programmer and can create pretty much anything that I dream up. So, we tried a ton of different things and tested results...**THEN ONE DAY WE HIT THE JACK POT!** The programmer, let's call him Mr. X made a plugin that essentially made duplicate content unique to my site. This was accomplished by simply changing some of the "code" in the html to basically allow the search engines such as Google, Yahoo, and MSN to see our content as Unique...So unique that it passes CopyScape every single time, even though it is content being pulled from other sites. **HOW DOES IT WORK?** If you use WordPress as a blogging platform then chances are good you are familiar with plugins like WP-O-Matic and the likes that automatically pull and post content to your blog. My plugin works hand in hand with these types of plugins. It takes the content that is being posted,works its magic and gives you content that is unique to you which in turn gives you a hell of a better chance of achieving excellent rankings. Which of course we all know, means more money. **TESTIMONIAL** Just purchased DuplicateByeBye yesterday and installed it on 3 blogs I have that sell affiliate products. Frankly, I was skeptical of the results you have shown in your promo video, but the price was right so i went ahead and purchased. Checked my ranking this morning.

Check this out: Article #1 = #1 out of 66,000 (original ezine article not in top 10) Article #2 = #3 out of 88 (original ezine is #1) Article #3 - #1 out of 260,000 (original ezine is #4) All the above are unquoted searches. All this just 24 hrs after posting the articles. Please stop selling this plugin today :) - Craig THE RESULTS Lets just say that I saw a major jump in our earnings on all fronts and have since started to make blogging and auto-blogs in general a more profound part of my business. As a result, I have a lot more free time on my hands. More importantly, I am saving a ton of money because I no longer have to pay for someone to rewrite our PLR to post to my blogs. Hell, I don't even have to pay to have articles rewritten anymore, I just let the plugin take care of everything. WHAT DOES THIS MEAN FOR YOU? Basically it means you can stop putting duplicate content on your site and provide the search engines with what it believes to be unique content. I thought long and hard about actually selling this. In the end though, I decided to let a couple of trusted friends use it also and asked them to post the same content that I was posting and guess what? All of the content was indexed and ranked so, I talked about it and decided to share it with you now. If you are a blogger using the Wordpress platform that uses PLR or even an auto-blogger that pulls content from all over the internet, this plugin is a must have. Seriously, anything that will give you unique content and you don't have to do any work, is a no-brainer. So, don't miss out on this one as I will be limiting the number sold, but have not decided exactly what that number is yet.
