

Big Fat Get My File +

[DOWNLOAD HERE](#)

Get My File allows digital download sellers to disguise the real location of where downloadable files are stored online on their web servers. Sellers can then email their customers a special disguised download link to prevent file theft. For example, a seller's normal download link may be mywebsite.com/downloads/my_file.zip Now, there is nothing to stop a data thief from typing mywebsite.com/downloads/ in their browser and stealing all the website's files without paying. But, with Get My File, the seller's download link will be mywebsite.com/getmyfile.php?file=my_file.zip The link will then be disguised and the REAL location of the file is not revealed. Also, if a data thief tries to browse your downloads folder, it shows an Access Denied message Tags: from, thieves
