There are so many methods of profiting from PLR that you'll never have a problem monetizing them! There are so many ways you can profit with PLR that quite frankly you will never need to do a lick of work yourself when it comes to creating content...if you don't want to. To back up my answer I want to share with you 9 things you can do with PLR to make sure you can squeeze as much juicy out of them! === 1. Sell everything as they are. It's a no-brainer. Sell everything as they are and target it towards other resellers and internet marketers. They already know the value of PLR/MRR/RR products and will jump on an opportunity like this. 2. Package them in with more PLR. Same as selling everything as they are expect you add more to it, or add it to another collection of PLR/MRR/RR products to add value to your offer. 3. Create a niche AdSense website. Simply pick one of the PLR niche eBooks from above and turn it into an article-style website. Create 20-30 pages with 250-500 words of content each and a navigation menu. Then paste in your AdSense code for pay-per-click revenue. 4. Create a newsletter. Use the article-style website idea and allow visitors to sign up to your newsletter. Use the content within the PLR eBook to create informative newsletters and make recommendations to related products as an affiliate. Most affiliates will happily pay 75% commission on every sale. 5. Create viral reports. Extract some of the content from an eBook and compile them into smaller reports, add a link back to your website(s) on the first and last page. Then submit them to free eBook websites and directories. This will bring pre-sold and well-informed traffic back to your website where you can sell them the complete product. 6. Submit to ClickBank / PayDotCom. Pick a niche eBook and polish the sales page with more content, testimonials, and related bonuses to compliment the original product. Buy a new domain and set up a new ClickBank account. Submit the product and allow affiliates to start promoting it as well! 7. Create your own OTO. If you're building a mailing list in the internet marketing niche, why not create a squeeze page that gives away a free report on how to make money with PLR products, then present a one-time-offer (a.k.a. OTO) for all your PLR products straight after their sign-up! Research shows that people are more likely to make a purchase after taking action. 8. Create your own membership. PLR is hot and always sought after. You can add these products to your membership without having to outsource fresh content for your members.

Better still, you can drip-feed each product one-by-one, month-by-month for automated recurring sales. Even if you set up a low-cost membership at \$9.95/month, 100 members will still bring in \$995 per month!

9. Apply all ideas. There's nothing stopping you from creating say, an AdSense-based website, a free sign-up with one-time offer, submitting a copy to ClickBank, creating viral reports as well and making your own membership. ===== To put it bluntly, PLR works! And to help you out in this field I've created a comprehensive video series that explains everything for you ! Here it is; YOUR DOMAIN Its a 10 video series that comes with... - Video Squeeze Page and original video opt-in gift - Movie Trailer Style Marketing Video For the squeeze page - Professionally Written OTO Salespage - Affiliate Page and swipe file centre - Download Page with relevant built in backend income streams - Autoresponder series - Kick A** graphics and site template - And Reseller Rights to the lot You now get to learn...then earn from this unbelievable package !
