One of the quickest ways to make money on the internet is to build a list of prospects who are interested in making money online and who want to learn more from you. You build a relationship with them by providing quality content for them to read and watch and then promote useful products to them every so often. It really is as simple as that! But Why Haven't You Gotten To This Stage? You Don't Have A List Yet? - Getting started is the hard part.. how do you go about building one in the first place.. where do you get the traffic from? You Don't Know How To Promote To Your List? - Writing good Email copy to your list can be difficult at first! How do you make your Emails flow and make money without showing that you want to take advantage? You Don't Know How To Build A List? - What's the best method to use? Do an ad swap or do you set up a landing page? You Don't Know How To Create A Compelling Enough Landing Page To Build A List? - Creating a landing page of your own is only half the battle. People will not sign up if you're not going to provide any good! You Don't Know What To Give Them? - The best way to start building your list is to provide something for free. But you don't want to give anything random do you? That's why it's best to give something away for free which has potential to link to a special offer. ..All Of The Above? So, What's The Plan? You see, Email marketing is deadly effective and definitely one of the fastest ways of making money online. It's traffic at the click of a send button! I want you to build your list, establish a relationship with them and then be able to offer, (notice I didn't say sell) to them. How Do I Build A List Fast And Make Money In The Process? Luckily you don't have to worry about this part because I've prepared all the landing pages and download pages and special offer sales page for you. All you have to do is insert your opt-in code, upload the files and drive traffic to that site! The best way to get a high sign-up rate is to give! Whoever is looking for information on how to make money on the internet - give it to them! Not only that, but make the page good enough so that they would be silly not to sign up to your list! I've created a page for you which displays all the products they will be getting for free. Take a look below.. 1. 7 Giveaway Information Products You will be giving away quality information products on popular topics that others could quite easily charge for. Doing this will place you as an expert in the field of multiple internet marketing related subjects whilst showing your subscriber that you provide REAL

value to them! Not only that but you will have access to the eBooks yourself, but you will automatically own master resell rights to them so you can resell them as your own. A resellers kit will be provided! 2. High Converting Squeeze Page! You will receive a full give-away landing page designed for high opt-in rates! Simply enter your auto responder opt-in code at the bottom of the page and you're ready to upload! Add your own picture on the landing page to personalized it! 3. The Confirmation Page You will also receive a confirmation page to ensure that your prospect signs up! This part of the sign up process is very often overlooked! Many list servers require your prospect to 'double opt-in' before you can start Emailing them which is why a confirmation page is necessary! 4. The Download Page Again this part of the process is very often overlooked because most marketers simply send their PDF report or zip archive straight through to their prospect. You will now be able use your auto responder to send your prospects to a full download page so they feel like they've been looked after! 5. The One-Time-Offer Sales Page Now I'll leave this up to you how you want to go about using this sales page. I personally would send your new subscriber to this page first just before they are sent to the download page above. Alternatively, you could let your subscriber download and read the eBooks, give them a couple of days to digest the information, then present them with this offer using your auto responder! 6. The Master Resell Rights Download Page Again, if your subscriber invests in the one-time offer, you will have a ready-made download page to send them to. This will save you valuable time! 7. But I've outsourced ALL the work for you so you can simply copy and paste these Emails into your own auto responders to build a relationship with your list and to make back-end sales! Here's 1 Email Sample.. Here's message #1 taken from people who are interested in auto-responders.. Subject: {First Name} Heres the Secret to mining Gold using Auto responders Dear {First Name} You asked for more information on how you can use auto responders to boost your sales, and here it is: Auto responders are automated sales people that tirelessly follow up with your customers so you dont have to. You simply create a series of letters and decide how often you want them to be sent. Then, when people sign up for your auto responder series, each follow-up letter is sent on the precise schedule that youve established. Now, how easy is that! What can you do with auto responders? You can do anything that you can do with e-mail. Heres some of the most popular ways that people use auto responders these days: * Deliver FREE Reports * Provide Technical Support Follow-up * Deliver Online

Sales and Training Courses * Deliver Frequently Asked Questions * Process Online Forms There are essentially three types of auto responder available. Each one has its own benefits and drawbacks, and its up to you to determine which one meets your needs best. Heres a look at your options: PC-Based Auto responders This is a software package that you install right on your PC. It parses and processes incoming mail through your existing e-mail client and responds to messages that meet your criteria. Advantages * You typically pay a one-time fee and you own the software. * Its easy to use but typically provides only the most basic auto responder services. Disadvantages * It only works when your PC is on and connected to the Internet. * Its only as fast as your Internet connection * Your ISP may not allow you to send large quantities of mail. * You could get shut down if a subscriber forgets that they asked for your auto responder series and makes a SPAM complaint Owner-Managed, Web-Based Auto responders This is software that you install directly on your own web site. While some of the packages are full-featured, many are weak and buggy. Advantages * You typically pay a one-time fee and you own it. * Some versions have advanced features. * Its as fast as your servers Internet connection. Disadvantages * You need advanced technical knowledge to install and maintain the auto responder. * You have to own your own web site and domain name. * You may exceed your web hosts daily bandwidth limits if your auto responder series is popular. * You could get shut down if a subscriber forgets that they asked for your auto responder series and makes a SPAM complaint Auto responder Service Provider This is an auto responder service that you simply sign up to use. Everything is hosted on the service providers web site. You pay your monthly fee and you have full use of the service. Advantages * You dont need any technical knowledge * You dont need to own your own web site or domain name * You dont have to worry about e-mail or bandwidth limits * Most auto responder operators realize that auto responder SPAM complaints are usually bogus, so they are more lenient when you get one. Disadvantages You have to pay a monthly fee but, in most cases, its more than worth it to not have to deal with all the hassles of running your own. Most marketers, except for the really tech-savvy and those who have very deep pockets, opt for using an auto responder service. It just makes sense. Deciding what type of auto responder you want is just the first step. No auto responder is a good deal if you dont understand the secrets of using them to make money. In my next e-mail Im going to reveal the first of my Secrets to Mining Gold using Auto responders. Im also going to give you a 100 FREE gift just for reading the e-mail. Until then, take a look at {Offer 1}. Its the auto responder that I use. Yep, you guessed it, its the one that Im using right now to communicate

with you! You can check it out right here: {Offer 1 URL}. Until next time! {Your Name} {Your Email Address} {Your Web Site} PS {PS 1} How can this Email make you money you might be asking? Simply by becoming an affiliate of Aweber or Getresponse and replace the tags {Offer 1 URL} and {Your Web Site} with your affiliate link! If you have 10 Emails on the subject of auto responders spaced out between 4-7 days informing your reader about the subject you will make back-end commissions! ..And That's Just 1 Email! ..You Get 100 Of Them! Here's Another Sample.. Here's message #1 taken from people who are interested in resell rights.. Subject: {First Name} Heres the secret to making REAL money with reprint rights Dear {First Name} You asked for more information on how you make money with reprint rights, and here it is: Reprint rights lets you buy a book or report one time and then you have the right to sell that copy over and over again! Now dont confuse this with an affiliate program that only pays you a commission for referring orders to the product owners web site. This is TOTALLY different. When you have the reprint rights to a product, you get to keep 100 of the money for yourself. And its LEGAL! Now are you starting to see how valuable reprint rights are? Someone else spends all of the money and time that it takes to produce a new special report or e-book and then you get to sell it as if it were your own. Your investment = 0 and your upside potential is only limited by your imagination! But what Ive just told you is only the tip of the iceberg. You see, there are some insider-only secrets to multiplying your profit potential that all of the big dogs use, but the average guy like you and me are locked out. Well, youre not going to be locked out because I have the key and Ill share it with you next time we get together. In the meanwhile, if the lure of big money has you drooling hop over to {Offer 1 URL} and take a look at {Offer 1}. Its one of the best reprint rights deals I have ever seen! Until next time! {Your Name} {Your Email Address} {Your Web Site} PS {PS 1} Again how can this Email make you money? You could become an affiliate of a 'resell rights' package or better still, reselling a package that you've already bought yourself and replace the tags {Offer 1 URL} and {Your Web Site} with your link! Not only are you informing your prospect about the potential about resell rights products, you are the going to be first person they go to when they're ready to buy! You'll Now Be Years Ahead Of The Competition! The sad fact is that everyone is after new subscribers and looking to build their list, but many don't know how to promote to them or receive a high un-subscription rate because of poorly written Emails! That's the last thing you want right?.. Imagine you receiving quality Emails like this in your inbox, would you want to unsubscribe from this informative newsletter? Don't you think that your subscriber will become eager to hear more

from you? This is EXACTLY what the Follow Up System is designed to do! ..And It's A Fact! ..Getting a person who has just spent money with you to make an additional purchase is 100 times easier than getting a non-customer to make a first time purchase. Your Auto Responder Will Be Working Harder Than An Outsourced Staff Of 20 People! Another fatal mistake is that beginner's only place a few Email messages in their auto responder, maybe 3, maybe 5, even 12 at most.. but this is limited thinking. After your subscriber has received all Emails what happens next? ..Nothing! No Emails, no contact, less responsiveness and most importantly.. no money! Why would you want to do that? This is what a beginner's auto responder looks like... This is what yours will look like... ..and it keeps on going! ;) Your System Is Now STRONGER Than Ever! Now look at what your process map will look like with your SuperSignUpSystem and FollowUpSystem in place.. Save yourself many hours writing Emails from scratch and deciding on what to promote! All the 'relationship' building is done for you. Your auto responder delivers, our Emails do the pre-selling whilst you make a residual income. Space your Emails out weekly and you've got nearly 2 whole years worth of newsletters! We've done all the work for you and set it up as a template! All you have to do is replace the tags and plug it into your auto responder then sit back and relax! How much would you expect to pay a freelance writer for these emails? \$10 a piece? That's on the cheap side, not only that but you've still got to wait for them to deliver, proof-read and then edit to your liking. So far the bill is already \$1000 and these Emails would be worth it! After all, they're here to save you precious time and to take care of your subscribers months from now! Despite the \$1000 value, you can get them all FREE as a bonus to your SuperSignUpSystem templates! But Wait!.. That's Not All!.. Order Your Copy Of The SuperSignUpSystem Today And If You're One Of The First 50, I'll Even Give Master Resell Rights To This Entire Package!.. So not only do you get 7 quality give-away eBooks, a quality squeeze page and one-time offer but I'm going to throw in Master Resell Rights so you can re-sell this entire package as many times as you want! Here's what you get.. Your own sales page just like this!.. Your own download page with all the links actively pointing to the downloads.. And all the templates and reports zipped up and compressed for quick set up! So are you ready to start taking action and building a life long source of income from your list? Simply accept the terms in the form below and order in complete confidence..
