Flood Your Websites With An Ever-Growing Supply of FREE Website Visitors! Discover How You Can Create A Massive Viral Firestorm To Explode Your Website Traffic And Sales. It's Easy When You Take The High-Perceived Value of Software and Combine It With This Advanced New Tool That Transforms It Into A Viral Marketing Machine Xyber brander is a tool that allows you to transform any piece of software into viral marketing machine! You just come-up with a software tool your customers want, get a programmer to create it, and you can now easily add HTML advertisements for any website in your new tool! You can then build gigantic lists of subscribers and get free traffic from your users of your software for years come! Here's The Full Range of Benefits You Get: * Skyrocket your traffic without paying a fortune in advertising costs! You can now place ads to promote all of your offers inside your software. * Generate gigantic affiliate commissions for others' products by inserting ads with your affiliate links inside! You don't even have to have your own products to make a bundle! * Increase affiliate sales for your existing products by giving away software branded with affiliates' links. It's a great way to boost your sales generated by affiliates and get them excited about promoting you! * Stay in front of your customers and prospects every time your software is opened! Unlike an ebook that is read once and never looked at again, software generates traffic from the same visitor for years to come! * Create software bonuses for your customers to get them buying more of your existing products! Remember, those that have bought from you are much more likely to buy from you again! This means you need to take advantage of every opportunity possible to get in front of them! * Have wild success because software products have high-perceived value! This means people are more likely to use it and want to pass it on to others! * Burst into new market with ease by building a huge opt-in list with software! This is the perfect way to quickly dominate any market when you're starting from scratch! * Take full advantage of any freeware software that you distribute to the dozens of software directories around the web! You're going to convert far more people that download trial versions of your paid software into buyers! * Turn any .EXE file into a massive promotion machine - for any product your choose! There's an amazing opportunity to create interactive viral reports, tutorials, and fully monetize your content! Plus, much more!
