Beat a new path through the ragged terrain of the dubstep domain with "Twisted Dubstep Beats", the fresh new angle on dubstep beat making from the superior sample pack dons at Prime Loops! Rip up the rule book and fashion a new look with this selection of dissident dubstep drum loops guaranteed to propel your productions in unexplored directions! Re-inventing the intrinsic elements of dubstep percussion, you can expect to find your shuffling snares and standard claps, sliced, diced and re-arranged! "Twisted Dubstep Beats" crafts enigmatic new patterns from the crooked dynamics of "BeatPrism", to the jagged steps of "RoboChop", and the angular blows of "SnappySkip" to the meandering palpitations of "UKDrop"! Eclipse the competition and hammer some fresh angles into your mix with over 200mb of rebellious beats, ranging from 130 to 150BPM, primed and ready to drag and drop straight in to your mix. You can even stretch or squeeze any loop to your own desired speed! And - as a special add-on for advanced beatmaking we have also included an intense section of over 100 truly twisted dubstep drum one-shot samples for this one! So send those crooked beats spiralling into the abyss with "Twisted Dubstep Beats" available exclusively on direct download in 24-bit hi definition and pre-formatted for all major music hardware and software as well as totally free from any royalty or sample clearance hassle! If you want to set your tunes apart from the tiresome sounds turning the airwaves stale, break away with "Twisted Dubstep Beats" for the phatest and most unique dubstep drum loops!
