Dotcomology - The Science of Making Money Online "Don't Pay A Dime For Any Ebook, Marketing Course, Software Program Or Anything Else Until You've Read This Groundbreaking Document..." "Get Everything You Need To Make Money Online Including Over \*30\* Time-Saving, Profit-Producing, Influence-Expanding Tools & Software Programs Absolutely Free In The Next 60 Seconds!" Dear Friend, This website is going to make a lot of people angry. One group of people who will lose their cool after seeing this site is the Internet marketing "gurus" who charge big bucks for some of the exact information, business building tools and software programs you'll receive absolutely free when you download the "Dotcomology" ebook today. Click here to get it now! Another group of people who will explode with anger after reading this site is the large and ever-growing group of customers of who have purchased products from the above-mentioned Internet marketing "gurus" who usually charge 3-4 times more than what you would have to pay offline for comparable material... The fact is there is a complete economy feeding off of the ignorance of other people who get online with hopes and dreams of making money on the Internet. People are selling Internet marketing "how-to" ebooks on the Internet for \$47, \$97 and even up to \$197 that wouldn't sell for \$10 offline in a regular bookstore... It's highway robbery! Companies are selling "search engine submission" software and charging outrageous monthly fees even though they know it won't help your site get listed in the search engines... Business opportunities are born every day that promise to make you rich simply for signing up. Yeah right... "You don't even have to do any work!"... Give me a freakin' break!!! As P.T. Barnum once declared "There's a sucker born every minute." and unscrupulous marketers everywhere are taking full advantage of this unfortunate human characteristic. I'm sick and tired of seeing people get hurt by what they don't know... ... That's exactly why I decided to share my knowledge of making money online with you for FREE. Introducing... Formatting tools: - Format your emails and articles for optimum performance. Formatting your text to specific number of characters per line is an important part of writing articles for publication and sending emails online. Most ezine publishers prefer articles to be formatted to 60 - 65 characters per line. However, counting each character and manually placing a hard carriage return at the end of each line can be very time consuming. Now you can do this easily with just a couple of clicks for free. - Free website color picker allows you to grab palettes of up to 16 colors at once and use four advanced color mixers to select a spectrum of possibilities. - Analyze the emotional impact of your headlines in an deep and emotional way is a key to successful copywriting, and your headline is unquestionably the most important piece of copy you use to reach prospects. Guarantee the success of your headlines in advance! Research and discovery tools: - Free online spell checker. Never make a spelling mistake again! - Search the dictionary, thesaurus or encyclopedia online. Eliminate the need for bulky reference books! - Free software finds the perfect set of keywords for your web pages. Knowing the right keywords to target ensures that your site provides what people are actually searching for. - Simple one-click keyword discovery tool helps you gain a better search engine placement. - Fast and accurate web page keyword density analyzer helps you improve your search engine ranking. - Check your website's link popularity with one easy click! Checking your link popularity check is one of the best ways to quantifiably and

independently measure your website's overall visibility. Simply put, link popularity refers to the total number of links or "votes" that a search engine has found for your website. This free tool finds out who is linking to your site and gives a useful benchmarking report to quickly show where you stand in comparison to competitors and other major online players.

Performance and protection tools: - Free multiplatform office suite that rivals Microsoft Office and other popular office suites. Includes a powerful word processor called WRITER: use it for anything from writing a quick letter to producing an entire book with embedded illustrations, cross-references, tables of contents, indexes, bibliographies... Auto-complete, auto-format, and real-time spelling check make light work of the hardest task. Writer is powerful enough to tackle desktop publishing tasks such as creating multi-column newsletters, brochures - the only limit is your imagination. This free suite also includes CALC to bring your numbers under control. This powerful spreadsheet has all the tools you need to calculate, analyze, summarize, and present your data Also included are IMPRESS - the fastest, most powerful way to create effective multimedia presentations. Your presentations will truly stand out with special effects, animation and high-impact drawing tools, DRAW - will produce everything from simple diagrams to dynamic 3D illustrations and special effects and BASE - enables you to manipulate database data seamlessly within the suite. Create and modify tables, forms, queries, and reports, either using your own database or BASE's own built-in HSQL database engine. And here's the best part... All of these powerful productivity tools are 100 FREE! - Defend your site from plagiarism and search for copies of your site on the web with one all-inclusive tool. Never lose the recognition of your hard work to cheaters and copy cats again! - Scan your web pages to locate errors with one click! Powerful HTML Toolbox scans your pages and lets you know about errors before your customers find them. Detect and remove spyware of different kinds from your computer. Spyware is a kind of threat that many anti-virus applications still don't cover. If you see new toolbars in your Internet Explorer that you didn't intentionally install, if your browser crashes, or if your browser start page has changed without your knowing, you probably have spyware on your computer. But even if you don't see anything, you may be infected, because more and more spyware is emerging that is silently tracking your surfing behavior to create a marketing profile of you that will be sold to advertisement companies. Our safe, effective and 100 free software can help you eliminate the threat of spyware on your computer. - Save time and completely automate password entering and form filling with the Internet's top-rated password manager and web form filler software that you can download free in

the next 5 minutes. Submission tools: - Instantly submit your website to get a free listing in Google. - Submit your articles to hundreds of websites across the Internet in minutes... This site is the fastest way to become a syndicated author on the Internet and one of the best ways to promote your website FREE! - Ping your blog to more than 20 blog syndication sites with the press of a button. Communication tools: - Communicate in real-time with anyone in the world for free. - Little program allows you to make free calls over the Internet to anyone else. It's free and easy to download and use, and works with most computers. - Unlimited follow-up autoresponder service. I've personally used this tool to make millions of dollars in online sales for myself and my customers and now you can start using it too absolutely FREE!
