"This book ... teaches basically everything you need to become a successful salesman and how to make it a fulfilling craft" Book Excerpts: Every idea advanced in this book has one objective in view: your interest. Will it stimulate you? Will it instruct you? Will it inspire you? Will it increase your understanding? Will it contribute to your growth? Will it help you to be a bigger man and a better salesman? ...Creative selling is the ability and art of increasing the satisfaction of the prospect by convincing him that the thing you want him to buy will best fulfill his needs and desires. In fact, it is creating a want that did not exist before. ...The Power of Creative Selling is more than a book. It is an entirely new plan of selling, setting forth proven methods for creating more sales, earning a larger income, and enjoying more peace of mind. It is not the work of a theorist in an Ivory Tower, but of a stern realist who has encountered all the problems and heartaches that you are encountering, and who has solved many of the situations that are perplexing you at this very moment... ...If you will read what follows and apply to your own life the powerful principles set forth, you will have a workable plan of creative selling that will really get results and enable you to sell anything.
