Handshakes Professional

[DOWNLOAD HERE](#)

Admin Console Handshakes Professional Script comes with a very powerful Admin Console which gives you total control over every aspect of your Site. You can easily manage and customize your Website from the Admin Console. Here are a few of the key features: Enable & Disable All Modules [NEW!] Upload your own custom Logo [NEW!] View Member Activity - View, track, email, and delete members that are no longer active [NEW!] Simplified Page Composer [NEW!] Choose different colors from a Style Pack to change the look of your site [NEW!] Ability to add individualized Tip Messages to your form fields to assist your Users better [NEW!] Statistics Module allows you to view in a glance all types of data about your Users such as: Total number of Members Number of Music & Video files that are currently uploaded Statistical information on Profiles by gender and age The top geographic locations of your Members by Country, State & City The number of Classifieds, Blogs, Events, Clubs and eCards you have plus much more! Add/Remove themes for designing your site Edit your system email templates, error messages, tips, menus, forms, page titles and site option drop down items Send mass emails to your users Import members from other data sources Assign a user as a moderator to allow them to manage specific areas and modules GetPaid Create multiple membership packages Setup prices and payment periods for each package Setup per-page or per-module access levels for each package Offer members the ability to pay for making their blogs, classifieds, events or clubs to appear in Featured lists Create advertisement campaigns Upload banners or use external ad tags (such as Google AdSence or Overture) Setup targeting for campaign ads: per-page targeting, geo targeting, categories targeting Track sales history Ability to approve pending orders manually Alertpay Integration [NEW!] PayPal Integration Free Trial option for subscription packages [NEW!] Forum Admin can create and manage forums Members can post topics (HTML tags support, smileys) Members can post replies to other topics Administrator can assign Forum Moderators on a per Forum basis [NEW!] Ability to lock, move & sticky Forum Threads [NEW!] Photo Crop Tool When users upload a new photo they can create a custom thumbnail for it by cropping out any area from the original image. Instant Form Validation When users submit any form our script will validate the input BEFORE sending data to the server or reloading the page with an error. It saves time

for your users and usually leads to higher sign-up rates. Video Ads Plugin Allows to insert flash, jpeg and even video advertisements inside every video played on your site. Supports Pre, Post and Mid Roll Ads. NOTE: this is a separate plugin and is not included into the base Handshakes script. Please click here to read more. Video Grabber Plugin Allows your Handshakes users easily import / embed videos from YouTube by entering the video URL. NOTE: this is a separate plugin and is not included into the base Handshakes script. Please click here to read more. Load Balance Plugin Allows you to use multiple servers for video convertion and storage. Includes script installation, single server setup and plugin integration. NOTE: this is a separate plugin and is not included into the base Handshakes script. Please click here to read more. Tags Tag clouds appear on all pages for blogs, Q&A, music and video modules Modules settings: Enable/disable module Minimum and maximum amount of tags to show Minimum string length of a tag Minimum and maximum font sizes Cache lifetime Social Bookmarking Social bookmarking buttons appear on blogs, music and video view pages Admin can enabled/disable module and setup engines Default engines: Favorites (browser favorites) Del.icio.us Digg Furl Magnolia StumbleUpon Google Yahoo Technorati BlinkList Recording Members can send voice or video messages to each other Members can post audio or video testimonials for other members Audio/video blogging Audio/video comments for blog posts, music entries and video uploads Admin is able to setup a limit of disk space allocated for each users multimedia content Video Chat Members can invite each other to a video chat Ability to ignore user Admin is able to setup daily user usage time for video chat Music Members can upload music media files (sound or video) Members can input external embed tags (such as YouTube, Yahoo! Videos) Other members can listen/view medias, vote for them and leave comments Ability to search music by artist or title name Ability to browse music files Unique Handshakes MP3 player is used to play MP3 files (view screenshot) Videos Members can upload their fun/home videos and put them to various categories Members can input external embed tags (such as YouTube, Yahoo! Videos) Other members can view videos, vote for them and leave comments Ability to search for video files Ability to browse videos by categories All videos are converted into the FLV format during upload Screenshots are created on the fly Unique Handshakes FLV player is used to play video files (view screenshot) Flash Chat and Instant Messenger Members can chat in public rooms or in club-private rooms Members can send each other instant messages IM supports smileys Members can add their friends to IM contacts lists and get instant notifications if any of them comes online Profiles Full control over profile questions and

sections Members can choose a preset template for their profile or create their own using HTML and CSS tags, just like they do it on myspace Members can easily add sound or video to their profile, which will be automatically embedded into their profile page Profile page includes a brief list of members recent blogs, classifieds, events, clubs and a preview of members photo album Profiles can be bookmarked Hot or Not Members can upload their photos and allow other members to vote for them and leave comments Top lists: any gender, male and female separate top lists Blogs Members are not limited to just one blog and can start a blog for each topic they want to share their throughts for Other members can post comments for each blog post Ability to attach images to the post Ability to personalize blog by choosing a template, modify colors, use custom CSS tags Blogs can be bookmarked Classifieds Members can post their classified ads and put them in a particular category/subcategory Other members can send replies for classified ads Ability to upload an image for the ad Ability to personalize classified ad by choosing a template, modify colors, use custom CSS tags Classifieds can be bookmarked Events Members can announce date/time/location based events Other members can attend events and see whos already in an attendees list Ability to personalize event by choosing a template, modify colors, use custom CSS tags Events can be bookmarked Clubs Members can create clubs with different access level: public (anyone can join), moderated (moderator approves/declines join requests from other members), private (invitation only) Each club includes club classifieds, club events, club discussion board, club photos Moderator of the club has an ability to manage members (delete existing members or invite new ones) Ability to personalize club by choosing a template, modify colors, use custom CSS tags Clubs can be bookmarked eCards Members can send eCards to other members of your site or to their external friends Ability to send eCards immediately or on date Senders get notifications when their eCard has been picked up by each recipient Ability to personalize eCard by choosing a template, modify colors, use custom CSS tags eCards are being stored in My Sent eCards and My Received eCards special folders Polls Users can create their own polls with a question and a number of answers Other members can vote for their preferred answers and see statistics on how others have voted Admin can approve / disapprove every new poll ADDITIONAL FEATURES 100 Open Source Code Source code of Handshakes script is not encoded. This means that you can modify the functionality of the software to meet your needs, integrate custom modules or remove unnecessary functionality. We also provide FLA (Flash) source files for any Flash element which we use in our script (except flash video player) and PSD (Photoshop) source files for

our graphics. Bulletins Members are able to send a message to all of their friends at the same moment. These messages will appear in a special Bulletins Space section. Photo Albums Members can upload photos and put them to their photo albums. They can also limit access to each album for various groups of members. Instant Notifications Members will see instant notifications at the right-bottom of their screen when their friend comes online, when theres a new visitor on their profile, when new message arrives and when theres a calendar reminder set for the current moment. Geo-Positioning System Handshakes comes with a complete DB of world countries, states and cities, from which members can choose their location. Script then uses this data to calculate distance between members or return search results within specified distance. Unique Colorize Template feature Your members can personalize their profile, blog, classified ad, event or club by changing colors of the chosen template. Its not just CSS style modifications - its ACTUALLY colorizing images, used in a template. WYSIWYG HTML Editor Well-known multiplatform HTML editors are integrated into all Handshakes modules. It will help your members to create HTML-enhanced content for their profile, blog post, classified ad or event description without making them learn HTML. TinyMCE (tinymce.moxiecode.com) CLEditor (premiumsoftware.net/cleditor) for more simplified and faster loading [NEW!] Admin can choose between TinyMCE, CLEditor or None globally for site [NEW!] Badwords Filter If your site is supposed to be open for kids or you just want your members to be polite you can enable Badwords filter and all forbidden words will be stripped from users input. Admin has an ability to remove or modify existing badwords list or create your own. Multilingual Support Handshakes Professional has been written with a full support of international languages. You can configure the global encoding of the script - and all HTML output, DB entries, emails, etc. will be converted to the specified encoding. Live international sites: handshakes.de china360net.com schuelercommunity.com kuki.co.il Translate Tool Ability to translate the whole script in few steps from admin console. Viewed me section Members are able to see who have viewed their profile. Bookmarked me section Members are able to see who have bookmarked their profile. Saved Searches Members can save their search and be notified by email when theres a new match to their search criteria. Forum Integration Handshakes Professional includes a preset integration into most popular forums: phpBB, vBulletin, Invision Power Board. Address Book Import Members can import their contacts from Yahoo, Gmail, AOL, Hotmail and invite them to join your site.
