"Give Your Next Anniversary Sale or Fire Sale a Turbo Boost With These Awesome Brand New Special Offer Templates!" Dear friend, Anniversary sales and "fire sales" are a great way to make money fast. You put together a big package of your best products and offer them all for one low price for a limited time. Your customers love it, and you make a nice chunk of money in a short period of time. To help you run your next "fire sale" better, I've created some awesome "Special Offer Templates" that will make your next sale stand out. AND will make it fast and easy for you to put it all together. These are very unique templates in a style that I've never seen in the Internet Marketing community before. Watch these templates in action... What makes these templates special... Professional design. Pre-formatted pages. Nice big header area to show off your special sale. Formatted tables to show off everything your customers will get. Very simple to edit and use. Set up a really nice looking special offer in just a few minutes. It's a very simple template with a unique and professional design. And to give you some variety, I'm including 6 different template variations. Some come with clickable thumbnail images of your products right in the header, and some have a header where you simply put images of all our products (not clickable thumbnails). You also get... Matching Download Page After a customer purchases your special offer, they'll go to your download page. To make it easier for you to set everything up, I created a matching download page with nicely formatted tables for your product download links. Just insert your product images and link the buttons to your download locations. Graphics Elements Library With Different Styles, Colors and Sizes To make it super easy for you to spice up your sales pages, you also get different graphics and design elements (checkmarks, bullets, order buttons, guarantee signs, arrows, etc..) in different styles, colors and sizes... With all the different style, color and size variations there's several hundred elements in this graphics library. What you see above is just a small sample. Full PSD Source Files To Everything You'll get PSD source files to the template design, the header, and most of the other graphics elements. So you can further customize things. Video Instructions The templates are made in simple HTML and are very easy to use. If you have some basic HTML skills, these templates are a breeze. The videos will cover: 1. A basic overview of the HTML template. 2. How to modify the

countdown timer Javascript (very easy to do, just change one line of code and upload one file). So How Much Is This Product? I'm sure you can agree that hiring a designer to design and then format and put together your site for you would cost a lot of money (several hundred dollars for just one site is a reasonable and average price). Of course I'm not going to charge you that much here. I wanted to make this affordable for everyone, so the price I came up with is... Not \$47 \$10 Only! I also have a money back guarantee, just in case that price is not low enough...
