

# Commercial Rnb: Trance & Dance Vol 1 (acid/wav/midi)

[DOWNLOAD HERE](#)

'Commercial RnB: Trance & Dance Vol 1' kicks off a brand new trilogy from Producer Loops, and brings you 5 feature packed Construction Kits inspired by the latest sound to take the charts by storm. Combining RnB with Pop, Trance, Electro and other dance elements, this pack boasts a soulful, yet club-ready vibe with endless crossover potential. Even the most successful and established genres need to diversify and evolve to stand the test of time, and to this end many producers have begun combining previously exclusive styles to create fresh, new and interesting sounds. 'Commercial RnB: Trance & Dance Vol 1' captures the essence of the latest hybrid styles to dominate the charts, providing you with 5 Trance & Dance influenced RnB/Pop Construction Kits. You'll find solid drum loops, high energy synth arpeggios, ball-busting basslines, soaring lead melodies and chord progressions screaming out for contemporary RnB vocals. All of this is underpinned by club-shaking drums, complete with groove laden top loops, and rise FX loops ideal for building your track up to a memorable and euphoric chorus. Check out the MP3 demo to hear the cutting edge sounds on offer, and read on to find out more about the complete feature set of this pack.

**The "Commercial" Series:** This is the first release in our new Commercial Series which will focus on delivering current, chart-ready Construction Kits, samples and loops designed to be combined with lead and backing vocal performances to create a new generation of smash hits.

**A & B Sections:** You'll find two complete sections in each kit, allowing you to create distinct verse and chorus sections, or mix and match elements from each section to construct new variations.

**MIDI Loops:** Like most other Producer Loops releases, this pack features melodic and rhythmic MIDI loops allowing producers to use their favourite synth or sampler sounds with the phrases included. Unlike pre-rendered audio loops, MIDI can be scaled to any tempo and played back at any pitch without glitching or artefacts.

**One-Shots:** Included with each kit are percussive one-shots, allowing you to construct drum kits in your favourite sampler to create new beats, patterns and fills to augment the included content.

**Dry & Wet Versions:** Where possible, dry and effected versions of loops are included, allowing you to create your own FX mix if you wish. Of course, you can still just drag and drop the wet versions to get the same FX mix as heard in the main demo mix above.

**FX Tails Included:** As with most Producer Loops

Construction Kits, FX tails have been included where possible, allowing you to end a phrase with the natural decay of the loops reverb or delay tail, instead of having to resort to a fade or an abrupt stop. Vocal Ready: These kits have been specifically written and mixed to leave room for lead and backing vocals for a commercial, radio ready sound. SSL Technology: All individual parts and main mixes have been processed using state of the art outboard SSL technology, delivering an extra polished mix and the highest quality sound possible.
