I probably don't need to point out the fact that there are dozens, if not hundreds of courses, eBooks and membership sites out there promising to teach you how to make money as an affiliate. Most of these courses make huge promises and are offered by someone who has NEVER made money as an affiliate or at least hasn't made anywhere near the amount of money they say they are going to teach you how to make. This can make learning how to become a profitable affiliate impossible! After all, how is someone that hasn't even done what they are promising to "teach you" going to actually "teach" you how to do it? They aren't and can't, it's that simple. This has been a big problem in the Internet Marketing market for a long time; people trying to teach things that they have no experience in and, frankly, no business teaching at all. And what's worse is... You Are Also Being Taught Unnecessary & Expensive Steps That Do Nothing But Waste Your Time And Money! Because you are using unproven information that contains flaws, extra (and expensive) steps that you don't need to take and time wasting advice that can literally empty your wallet of cash rather than fill it up. I'm sure that you'll agree that's not the outcome that you are looking for and that you paid good money for, is it? This is why I put together something that is based solely on MY affiliate marketing RESULTS over the last couple of years for you to follow.
