Design Details 20-30 HTML Pages 10 to 20 Product Images (Static) Product images 1 Flash Header 5 Flash Banners 1 Feedback Form / Inquiry Form Flash Based News Panel U p to 5 Revisions Royalty-Free Images Source Files and Ownership Right 10 Search Engine Submissions Hosting Details companyname.com{.bizetc } 500MB web space 5GB Monthly Bandwidth 100 POP Email account Real-Time Statistics About Visitors to Your Website Web based E-mail & control panel INS has an experienced web development team with a large number of web sites to its credit. INS understands that a web page not only presents the business to the world, but also that the Internet is an important medium for transacting with a company's stakeholders. Because of this, INS maintains a high standard of quality in all sites that it develops, in terms of aesthetic appeal, functionality, navigation, and overall effect. When starting any project, our first step is to understand the purpose of the site. By making sure that we are in tune with our client's needs, our Project Managers are better able to guide the development process, from proposing features that should be offered on the site to basic idea conception, site development and hosting. After the site has been completed, INS remains involved, offering site maintenance and back-end support. Our clients rest assured knowing they have partnered with a professional, reliable, organization to manage their Internet presence.
