In today's fast-paced world, you have to make an impact fast! You only have a few seconds to grab your visitors' attention, or you risk losing them forever. You need to control what your visitors see and when -- and without a doubt, the most effective way to do that is using popups. But, there's a problem. According to a recent study, it is estimated that 86+ of the visitors to your website have at least one pop-up blocker installed. And to make matters worse, most of the major Internet service providers, and almost every new web browser being released are including popup blockers too! Were you one of the millions of marketers forced, against your will, to abandon one of your most effective advertising methods? It's time to fight back, and we're going to show you how to do it. Re: The Latest Popup Technology Dear Marketer, What if I could show you a way to capture your visitors attention, force them to read your most important message, and do it with just a few simple clicks? Would that interest you? It's no secret that popups are effective, but traditional popups only work if your visitor doesn't have a popup blocker installed. Most popup blocker technology works the same way. Almost all popup blockers look for any code that creates a new window, and then closes that window before it even has a chance to open. This seemingly harmless technology is blocking more than just a popup, it's killing your profits! "IM Popup" Uses Proven Technology That Is Advanced Enough To Outsmart Those Pesky Popup Blockers! What you need to create effective popups is a something new. Something that is just as effective as a traditional popup, but smart enough to not fall prey to popup blocking technology. That is exactly what "IM Popup" does! You see, this new method of creating dazzling popups doesn't create a new window of any kind. In fact, it's

actually part of your web page itself! Using "IM Popups" you can rest assured that your message will show up when you want it and create the impression you so desperately desire. IM Popups bypasses the popup blockers and will give you the peace of mind in knowing that your messages will be seen. What Can I Use "IM Popup" For? If you want your visitors to know about it, IM Popups are the answer. You can use IM Popups to make sure your visitors know about: Your Product's Most Important Feature - Highlight it in a popup and it will really make an impact! Special Discounts Or Promotions - Everyone loves a sale, but only if they know about it. An Important Endorsement - Build credibility from the minute a customer hits your website! Contest & Sweepstakes Announcements - Who doesn't want to be a winner? Product Updates - Displaying an "updated last week" message will skyrocket your sales. Reminders - Let your prospects know that a new product is coming, or that a sale is ending so they'd better act fast! Opt-in List Building - Tell your visitors about a free gift and your list will grow by leaps and bounds. Traffic Control - Have an old domain that's still getting traffic? Make sure your visitors know where to go! Up Selling & Cross Selling - Include an IM Popup on your thank you page and grab your buyers while their credit card is still on the table! Affiliate Product Promotion - Let your prospects know about new product launches the minute they get to your site. Are you starting to see the doors that will open to you when you start using "IM Popup"? No longer will the door be slammed in your face, it will be flung wide open showing your visitors your most important message within seconds. "IM Popup" Is Point-And-Click Easy. If You Can Click, Copy, and Paste, You Can Do This! "IM Popup" is a simple Windows application that will guide you through the entire process of creating these dazzling, attention grabbing popups. Simply point, click, and create ... It really is that easy! IM Popup - Step One Choose from one of the 10 20 professionally designed, sophisticated graphics for your "IM" popup. Simply highlight the popup template you'd like to use, and move on to Step Two. "IM Popup" Crushes The Competition And Stands Head-And-Shoulders Above The Rest! Let's face it, in the software game, there are always competitors out there, but "IM Popup" is the obvious choice. You just won't find another application that is as easy to use, and as feature packed as this outstanding application. The software runs on your computer, and the popup files are uploaded & stored on your web server. Using this program gives you the peace of mind in knowing that you'll never have to worry whether your 3rd-party "popup service provider" is going to be around tomorrow. All of the files required to make your "IM" popup work are stored on your own web server, so you're not at the mercy of another host. If your web site is online, your popup will be online too. And best

of all, "IM Popup" is the best value on the market. Unlike some of our competitors, you'll never have to pay a monthly fee. Once you purchase "IM Popup", it's yours forever, without ever having to spend another penny. Here's How You Can Start Using "IM Popup" Immediately, And Watch Your Profits Shoot Through The Roof! At this point you're probably thinking that, "Software that is going to give me such a huge advantage over my competition must be out of my budget." After all, many of our competitors make you pay a monthly fee, pay for additional popups, and even pay for bandwidth. Not here! What if I told you that you could download, and instantly put the power of these eye-grabbing popups to use for less than \$100? Would that be fair? Only10.
