Testimonials Generator - The Only Software of its Kind that Automatically Writes Proven = "Attention Getting" Reviews and Recommendations with Ease! Suitable for PC - RRP \$197! Imagine checking your email. In the last day you've gotten no less than a dozen requests from software programmers, eBook authors and a host of other people (including your marketing buddies) to take a look at their product and send them a testimonial if you like it no matter what! That is, of course, on top of the mountain of things you already have to do yourself! Testimonials Generator makes it simple and quick to create authentic, compelling testimonials - without stressing or slaving over the "right" words. Each one includes real details that go much farther than your typical "Great job! This product really saved me money!" testimonial would. All you have to do is add Your Name Your Web Address The name/company of the person you're writing the testimonial for The name/type of their product ...And then just click a button! It's that easy! The software handles the rest in creating real, believable testimonials that the product owner would be overjoyed to read! We both know writing strong, convincing testimonials takes work. And that's work that you and I both know could be better spent on creating and marketing your own products, building up joint ventures, calling on potential customers and better servicing your own business. Not only will you shave hours off of trying to come up with a solid, reputable testimonial or review, but you'll also give the testimonial-seeker a super-charged "gift" in your recommendation that he or she can be proud of. What it all boils down to is this -- you want to make things easier for yourself - and Testimonials Generator is one can't-miss piece of software that helps you do just that! 3 Video Tutorials Included This product is inclusive of ready made web site allowing you to resell this software instantly. Additional items such as graphics, marketing articles, promotional text and other items may also included with the package as well.
