Progressive Trance & Electro Vol 2 (acid/midi/rex/wav)

'Progressive Trance & Electro Vol 2' returns with another 5 construction kits combining powerful euphoric Trance with side-chained Pads and Synths also suitable for Electro. Alongside the various formats, this feature-filled pack also contains MIDI loops for all musical phrases. Producer Loops take Trance to the next level with this expansive and progressive collection of Electro tinged construction kits. Sidechained loops are included to give your mixes the pump and energy vital to modern Trance, Electro and Dance productions. All samples are recorded at 48kHz / 24-bit resolution, and come as ACID/WAV and REX (drums only). FEATURES FOR PRODUCERS: The key to a killer sample pack isn't just bags of content, or a high quality of production - both of which you'll find here - but also, usability. 'Progressive Trance & Electro 2' carries on the Producer Loops tradition of putting producer's needs first, and offers you MIDI loops for all musical phrases within the pack, as well as: - Effect Tails (Unlooped Riffs) - REX files for drum parts - Dry and wet versions of all loops - Unified tempo across all 5 packs - Key and BPM information embedded in the filename ABOUT MIDI: Using the supplied MIDI files you can assign any of the musical phrases found in this pack to your favorite synth or sampler, and integrate them seamlessly with the pre-rendered loops. Seeing how MIDI is effectively only instructional data, you can change the pitch and tempo to any extent you like with no artefacts. ABOUT UNLOOPED RIFFS / EFFECTS TAILS: Sometimes you may want to end a phrase with the decay of the reverb/delay effect - something which can be a problem with 'wet' loops. Unlooped riffs / effect tails include this decay portion to allow you to end phrases fluidly, and without resorting to fades. DRY AND WET LOOPS: Virtually every loop in 'Progressive Trance & Electro' is supplied as dry, and wet, meaning you can choose whether or not to have sidechaining and other effects applied to any given loop. If you want to drag, drop and render, the wet loops are for you. If you like to tinker under the hood and apply your own effects mix, use the dry versions. ROYALTY-FREE: All of the loops in this product are 100 Royalty-Free. So, once you have purchased this product from us you can use these loops in your commercial releases without having to pay any extra. SPECIFICATIONS: - 48Khz / 24-bit - All loops recorded at 128BPM - 5 Construction Kits + Drums and FX folders - Each kit contains 300-400Mb of content (each format)
