Simple Newsletter Creator

[DOWNLOAD HERE](#)

This software will create customized newsletters with colors and fonts of your choice. The process is to follow a simple wizard that guides you to fill in the necessary parameters to create your newsletter. With any knowledge of html or programming , the result can be stored both in Txt and Html. In the text file you can view the html source code with which you create your newsletter, so if you need to use it in any HTML editor ,just copy and paste. This guide includes a 140 color palette so you can choose what to use in your newsletter, when you fill in the parameter simply copy and paste the name. Also included are the various fonts you can use in your header, ready to copy and paste. And as an example the package includes 3 patterns with their parameters so you can copy them to the wizard or get some ideas. Html file is ready to insert into your usual mail application launcher or any mass-mail software.The package includes several of these programs on freeware version so you can send unlimited emails at a time with your newsletter included. Email is the way that you contact the members of your list on a regular basis and do so for the purpose of selling them a product or service for which you are an affiliate marketer. With this package you get a copy of Email Writing Secrets Ebook.
