How To Build A Real Authority Site, And Start Generating Cash From Day One... So without further ado, lets get started. To your success! I'm not going to waste your time telling you how valuable a strong knowledge of SEO really is... You already know that traffic is the lifeblood of any website, it's where the money comes from. These Techniques Aren't For Everyone, And This System Might Not Be Right For You... Backlink Flood isn't about writing a few articles and commenting on a few blog posts... These techniques aren't for the faint hearted or *website hobbyist*... These techniques are for serious entrepreneurs who want to build REAL businesses, I'm talking six figures or more... These are cutting edge techniques known by only a few lucky entrepreneurs, and this information can truly transform your income and your life... But just like anything else in life, if you want to get ahead, you're going to have to put in a little bit of extra effort... I'll show you plenty of shortcuts along the way... I'll provide you with tools and resources that can cut hours of work down into just a few minutes, but you'll still have to dive in and get your hands dirty... And although my system focuses on earning money as fast as possible using Rapid Link Indexing and finding high traffic links for an immediate traffic boost, the ultimate goal is long term rankings, high quality backlinks, and building a REAL authority site that generates traffic and cash for years to come... The search engines are smarter now than they where even a year ago, not just Google, but Yahoo, Bing and others as well... At the same time your competition is smarter than they used to be... Everyone and their brother knows what SEO is, they know how to build or buy links... And your bigger competitors are already enjoying great rankings, with established authority sites and tons of relevant links. However there is something you CAN do to get an edge, and it works FAST... Following my step-by-step blueprint you will learn... How To Exploit Rapid Link Indexing... Get your links noticed by Google and other top search engines in hours, not weeks... And start driving your websites up the SERP's and receiving organic traffic in the least amount of time possible... The Correct Way To Use Parasite Hosting... Parasite hosting is using 3rd party websites to post your content and links... It's nothing new, but most people don't have a clue as to how to use it the RIGHT way and create a powerful linking system that actually produces RESULTS and doesn't get flagged as spam. How To Build An

Authority Wheel That Works... If you thought linking directly to your site from 3rd party sites was enough to get the job done, you're probably not ranking as highly for keywords as you'd like to be, and chances are you're missing this critical tool in your SEO arsenal. Multi-Level Linking Explained... Think beyond direct linking, go one step further than building an authority wheel, and finally push your traffic and rankings to the next level using Multi-Level Linking... And make sure you do it right the first time so all of your hard work doesn't go to waste. Will Google Really De-Index My Domain? Absolutely, and anyone who tells you otherwise doesn't know what they're talking about... However, there are a few measures that you can take to make sure that it never happens to you, you can read all about it on page 26.

Keyword Research Done RIGHT... This is another MAJOR area where people mess up and throw away all of their hard work... And it's probably the most critical step in all of SEO, trust me, you want to get it right the first time... That's why I've included a special software and separate guide specifically to ensure that you're performing your keyword research in the correct manner. My Personal Tools To Help You Automate The Process... I'll go into more detail below, but I'm also including 2 of my own tools that I personally use to cut hours of work down to just a few minutes, and they'll help you to do the same. A List Of Over 250 Web 2.0 Properties That You Can Use To Build High Quality Links... And more importantly, I'll teach you how to use Web 2.0 properties the RIGHT way... So that you get high quality links from high authority domains, without being flagged as a spammer and getting your domain penalized. How Social Bookmarking Can Rapidly Boost Your Link Building Efforts... Very few people I know realize just how powerful social bookmarking can be... Again, there's a right way and a wrong way to go about it. I'll show you how to use social bookmarking in the most effective way possible. An In Depth Understanding Of How Links REALLY Work... What sites pass link juice? How far does it go? What gets you flagged as a spammer? How you can protect yourself... The anatomy of a backlink, why anchor text works the way it does, and much MUCH more... Here Are Some Tools I've Developed To Help You Succeed... I've included a couple of my personal SEO tools that I've developed to help with my own SEO projects... Both of these tools can help you to automate part of the SEO process and allow you to get maximum results for every minute of work you perform. Article Flood The first tool is Article Flood... It's an advanced article spinner that lets you provide word, sentence or even paragraph options, which it then combines to produce dozens if not hundreds of unique articles so you avoid Google's duplicate content penalty, produces unique articles that don't read like spun garbage, and can cut hours of article writing time down

to just a few minutes. Keyword Flood The second tool is something extremely special... It's a keyword research tool, and while there are many on the market, this one is unique... It allows you to quickly collect and analyze important keyword data on the fly, including search volume, top competitors, competing pages, domain data and more... Once you read the accompanying Keyword Flood guide you'll have a strong understanding of how to do proper keyword research and really take your SEO efforts to the next level...
