Website Clickstart | Open Multiple Websites - All Your Favorite Sites That You Visit Regularly - With One Magic Click!

[DOWNLOAD HERE](#)

Discover How to Open All Your Favorite Websites Each in Its Own Window With One Simple Click of Your Mouse! Dear friend, Web browsing has just gotten a whole lot easier! Heres why: * No longer do you have to slowly type in to your web browser website address after website address! * No longer do you have to limit yourself to one search at a time at your favorite search engine! * No longer do you have to limit yourself to searching on one search engine at a time! Thanks to an amazing new software program, you can now actually open all your favorite websites (each in their own window) all at once with a simple click of your mouse! And not only that, you can also use this same time-saving tool to either conduct multiple searches on the same search engine at the same time or to conduct one search on multiple search engines at the same time! Once you use this program and experience its convenience you are sure to wonder how you ever got along without it! Introducing Website Clickstart Website Clickstart is an invaluable software solution, which is extremely easy to use and which saves you from having to open all your favorite sites manually, one by one. With this program, you can make just one click and theyll all open! You can even store several configurations! In todays ultra-competitive marketplace, where everyone is looking for an advantage and a persons time is of maximum value, Website Clickstart could be just the tool you need to grow your business, focus on your shopping cart and explode your profits! Heres how: Website Clickstart will free up time that you used to waste remembering or locating website addresses and then typing them into your web browser. Thanks to Website Clickstart, youll be able to use that newfound extra time to grow your business or increase sales! Here are more features and benefits of the Website Clickstart program: * Allows you to open as many sites as you want each in its own window! * Saves you a tremendous amount of time that you can use to grow your business or spend with your family! * Streamlines your web browsing by eliminating typing errors and preventing incorrect web address entry which lead to stress and frustration! * Prevents you from having to go through your endless list of "Favorites" or "Bookmarks" to find each one of your regularly visited sites and then open them

manually! * Allows you to search your favorite search engines and directories - Google, Yahoo!, MSN, Alexa and Dmoz - faster than ever before! * And much, much more! Heres How Website Clickstart Works: After downloading and installing the program, you use the simple user interface to create a main category name or Masterlink. For instance, lets say you create a category named Websites1. You would then add the websites that you visit regularly that you want to include in this category and thats it. Now instead of visiting each website manually, you can just click on the name Websites1 and all of them will launch at once (each in a separate window). You can create as many categories or Masterlinks as you want. For instance, lets say you also create a Websites2 and a Websites3 and each of your categories (Websites1 through Websites3) contains 10 websites. That means you could launch 30 websites with three simple clicks. Just imagine how much time you will save launching those 30 sites using Website Clickstart as opposed to entering each of the site addresses manually! And Thats Not All Website Clickstart Allows You to Do! Website Clickstart also allows users to conduct multiple searches at the same time using the same search engine or to conduct the same search on multiple search engines. For instance, lets say you are searching for home business opportunities. Using Website Clickstart, you can enter the keywords into the search boxes, click Go and immediately five separate windows will open displaying results from Google, Yahoo!, MSN, Alexa and dmoz! Likewise, by using Website Clickstart theres no need to open multiple windows to do several Google searches at the same time. With Website Clickstart you can simply do the following: * Type your first group of search terms into Website Clickstart's Google search box, and press the Go button. A new window will open displaying the results. * Type second group of search terms into Website Clickstart's Google search box, and press the Go button. A new window will open displaying the results. * Type your third group of search terms into Website Clickstart's Google search box, and press the Go button. A new window will open displaying the results. And so on! Special Note: This feature is very useful when you want to find the rankings of multiple websites using Alexa! So What Are You Waiting For? Stop wasting your valuable time manually opening a new browser window, typing in the url in the address bar and then clicking "enter" for each and every single one of your daily-visited websites! Getting Website Clickstart is a golden opportunity to streamline your web browsing and increase your income online. Inefficiency is one of the main reasons so many Internet businesses fail today. Remember in todays competitive Internet marketplace, you need every advantage you can get and Website Clickstart is a great way to ensure you dont spend too much time remembering and entering web

addresses and too little time growing your business. So what are you waiting for? Download Website Clickstart Now! Let me ask you: How much would you expect to pay for a tool that could save you time and help you grow your business? Certainly, in todays competitive marketplace, even $200 would not be unreasonable but relax you wont have to pay near that much for Website Clickstart.
