The global economy has been writhing in agony. Unemployment is up. Foreclosures are at catastrophic levels. The fear for the future is palpable. These are tough times for so many people and many others who havent yet experienced the pain of this economic gut-punch are bracing themselves for it. But something amazing is happening. Its almost too good to be true. While millions tighten their belts and cut back on expenditures as a defensive measure, others are prospering. Thats right. Theyre prospering. No, were not talking about short sellers or bonus-baby CEOs who found a way to escape from the scene of the crime on a golden parachute while carrying a briefcase of cash. Regular people are making more money than they ever have before. These are people who now earn more than they did when they were safely working for big-name companies. What separates these trend-buckers from those who remain terrified or who have already suffered at the hands of this global recession? The winners in todays rough and tumble economy arent the folks working for Fortune 500 firms. Theyre not the brick and mortar merchants; The big winners are the people who are using proven Internet marketing tools and business models to generate healthy incomes online. Theyre building businesses that continue to function and even to thrive during these challenging times. Are you jealous yet? If not, you might find yourself feeling that way when you hear more. These entrepreneurs arent just grabbing cash with both hands. Theyre also living the kind of lifestyles about which most of us dream. They dont answer to some lousy manager. They dont punch in at a time clock every day. They control their time and how to use it. They decide whether they want to put in a few extra hours and they dont have to get someone elses okay when they want to put work on the backburner to be with their families. They dont just have money. They have freedom and independence. Are you part of this success movement or are you still watching the news with one eye closed and your fingers crossed? Look, job security is a joke these days. The most powerful and seemingly stable companies in the world are cutting jobs by the hundreds of thousands every single month. Unless you own the biz, you could be gone before you know it. Even if you do stay, you cant expect any big raises, can you? If youre not doing something different, the best you can hope for right

now is to tread water. And treading water just leaves you struggling in place. Maybe you can do that. Maybe you can hang on until things start to warm up again. Just remember that you do have a very attractive alternative. You can make money online. Although some Internet marketers have suffered minor setbacks during this downturn, most haven't felt the pinch at all. In fact, many are doing better than ever before. What are they doing? The folks who are experiencing high incomes and high levels of individual freedom aren't reinventing the wheel. Sure, they're applying their own creativity to their situations, but they're not all genius with rock scientist IQs or amazing out-of-the-box thinkers. The secret to their success isn't even a secret. They are using tested, proven tools to implement proven online marketing models. That's it. Seriously. And that's GOOD NEWS. Because if they can do it, so can you. Period. Are you looking for something better than what you have? Of course. You need something that...

- \* Will provide more income, making your life easier.
- \* Will give you a chance to adopt a better lifestyle.
- \* Will put you in the driver's seat, giving you the chance to make decisions and to be your own boss.
- \* Will turn off the time clock, allowing you to finally control your own time. YOU CAN HAVE IT. Those things are within your reach. All of them. You can be your own boss and you can do it profitably. Internet marketing is a great way to reach your goals--if you know how to make it work. That leaves you with a mission to complete... You need to get your hands on those tools. You need the blueprints that lead to successful online businesses.. You could try to amass that information by trial and error. That might work. It would take you an exceedingly long period of time to do so. And you'd probably stumble along the way. The better method? Tools and Models for the Internet Marketer!
