You won't be running to the local drug store this year because you ran out of gift tags, that's for sure. You might find some gift tags in here that you like BETTER than the "drug store" tags. Especially for that "Vintage or Victorian" look. Need animations for your website? Well, there's a few of those in here too. How about using these images for your websites or Christmas auctions on Ebay? There are PLENTY of images here to spice up your websites. Put your Ebay customers in a great mood with super looking auction pages, which will help you SELL MORE! The List Of Things You Can Do With These Images Doesn't End There! Here Are MORE Ways To Use These Wonderful Images: - Documents and Fliers for work or home, great for announcing Christmas parties. There are black and white line images you can use on colored paper too. - School projects. The kids can browse through here to use images for school projects, or for simply creating their own Christmas cards. We use these images for Home School projects, hand made gifts and more. - Church - need extra images to create announcements for your church? The nativity selection is perfect for church projects and announcements. - Bulletin Boards - create "classified ad fliers" for selling Christmas items, then post them on bulletin boards at your local businesses. Local bulletin boards are great places to get some local business action! - Ebooks about Christmas. Liven up your Christmas ebooks with these great images! - Website design. Since these images were collected from Public Domain resources, that means you are free to use them for your own designs. Yes, even on templates that you wish to resell. Royalty FREE! - Needlepoint patterns. Yep, I talked to one lady who purchased this package to create nice needlepoint projects with the images. -

Create your own physical products by using "Zazzle" "CafePress" and other online areas where they help you create mouse-pads, coffee mugs, t-shirts and more! - Using your imagination, I'm sure you'll come up with ways that I never even thought of. 150 MEG is nothing to sneeze at!
