In this guide you will discover how YOU or ANYONE can leverage on other people's time and other people's resources so that you can achieve more results, expand your business faster, and automate your business! "Discover How YOU - OR ANYONE - Can Leverage On Other People's Time And Other People's Resources So That You Can. . ." Achieve More Results, Expand Your Business Faster, And Automate Your Business! Your Name Here Dear Marketing Self-Starter, If you have a business, there are probably a number of day to day functions that could be outsourced to great advantage right this minute. "And why outsource?" you ask. As an Internet Entrepreneur, even though you are blessed with the high technology to automate some to most parts of your business - that conventional businesses cannot - there are still tasks that require the need for human touch. And as your business grows bigger, you would come to realize that you can automate only so many things. For instance, regardless of how many questions you answer via your FAQ on your helpdesk, it still requires a REAL human behind the online helpdesk to answer any queries or offer support to your end-users. "Hey, I can do that on my own," you probably think. Sure, but when your business grows so huge you're managing tens to hundreds of tickets a day, wouldn't it be wiser to outsource to a Virtual Assistant? "That's Just ONE Scenario." What about product creation? Graphic designing? Copywriting? Installing and customizing software and scripts? Not only would it take almost forever to know everything (and you and I know no one person can know everything), it would take literally forever to get everything done on your own. And the result? You get exhausted and burn out one day. Going on a vacation would then be a really good idea to run away from doing something you like. But with your business already too sizable for a One-Man-Operation, you cannot afford to go for a vacation at this stage. I don't want to be the bearer of the worst news, but I've heard of horror stories of individuals crashing and burning with their business simply because they took liberty of every responsibility in their business into their own hands. Now how would you like to: * Avoid these impending Internet Business disasters, *Outsource your tasks to trusted people on the Internet and spare yourself the effort, *Enjoy more time and money off, and *Focus strictly on the important things of your business such as directing its growth and direction? Then start outsourcing now! Have more time for

yourself, more time for your family, and more money in your pocket! WAIT! Special offer: Would you like to have resell rights to the "Outsource 1... 2... 3..."guide?
