"Here's A Quick And Easy Way To Get Loads Of Search Engine Friendly, Automatically Updated Content On Your Websites - All Delivered On Autopilot!" SPECIAL BONUS: Master Resale Rights Included Free

Sunday, January 17, 2010 Dear Friend, It's a well-known fact that Search Engines love regularly updated content on websites. Sites which are regularly updated generally get ranked much higher than static sites

that are created and then never touched again. However continually updating your site with new content is rather a lot of hassle. But now, there is an easier way. With our powerful Auto Content Pro, you can

instantly add a small bit of code to your web pages that will deliver regularly updated, search-engine friendly content - taken directly from some of the top article directories - and shown on your web pages on

autopilot. Get Free Automatically Updated Article Content Auto Content Pro allows you to harness the power of so-called "Javascript Feeds". Many sites offer Javascript feeds, including several of the top

article directories. To use a Javascript feed, you simply visit the appropriate article directory site, select a few options and then paste the supplied snippet of code into your web page. Instantly you get

automatically updated content shown on your web page. It really is that easy! Here's an example of self-updating content that you can get absolutely FREE... Most Recent Articles from Amazines.com Many

Articles provided by Amazines.com This feed is for the fitness niche and is taken from one of the major article directories. You can choose from over 100 different niche categories on this article directory site alone. The directory will deliver suitable content to your site automatically - continually rotating the content for you - and including new articles as they are added to the directory. With this solution, it really is a very simple way to get highly targeted self-updating article content - with very little effort. However there is a big flaw with all Javascript feeds. Javascript feeds are visible to your visitors, but since they are based on Javascript, they are NOT readable by Search Engine spiders. In fact, from a Search Engine perspective, these feeds are completely invisible. This is rather unfortunate as this undermines our primary reason for wanting to add them. However that's where your copy of Auto Content Pro comes in. The software fixes the problem, by automatically converting the feeds provided by the article directory into fully search engine friendly content.

Easily Add Search Engine Friendly Feeds To Your Sites Auto Content Pro can be used to add search engine friendly Javascript feeds to any web page - in just a few seconds. Here's a screenshot of this easy to use software: Just take the script code supplied by the article directory site - and paste it into the tool, then click the Create button. The software will then instantly generate special HTML code. The tool can either copy the code onto the Windows Clipboard (so you can paste it into your web page using your HTML editor) - or it can directly insert the code into your web page for you. Once you've used the tool and uploaded your updated web page, the feed will appear on your web page automatically, showing your visitors the very latest article content. The feed looks exactly the same as if it was taken directly from the article directory - but because you've used Auto Content Pro, the content is readable by the search engines. This provides regularly updated, search engine friendly, targeted content on your website automatically. Auto Content Pro is a great tool for boosting the profits of your sites - but I'm going to make it even more profitable for you. Your copy of Auto Content Pro comes complete with Master Resale Rights. This means you can sell

the software yourself and keep all the money. Just make one sale to recover your investment. I'll even give you a copy of this ready-made sales page to make it really easy for you. Just add your own order button to the ready-made page, upload to your own web host and you can be ready to take orders instantly. You can also use your copy of Auto Content Pro as a valuable bonus with other items you sell - or include it in packages and membership sites. All This For One Low Cost... If you're not using feeds on your websites, you are missing out BIG TIME on the huge benefits of this powerful technology. The search engines love them - and with regular new content on your site, your visitors will love them too. Using feeds really is a complete "no-brainer" - especially as we have made it so easy to add them to your websites.
