Discover How To Leverage The Power Of Web 2.0 Like A Guru Even If You Are A Total Dummy At I.T! Dear Internet Marketer: The web is exploding and evolving everyday. What was effective a year ago may be obsolete now, even extinct! Technology moves at the speed of light and you may be frustrated at yourself being unable to catch up, let alone harness the power of the net for your products or business. Worse still, there are many who seem to have discovered the secrets of making money on the web are are making a handsome profit from it. You could be forgiven if you throw envious glances at their new-found wealth. And so, you researched and spent a small fortune buying all sorts of e-books and material on web 2.0, hoping to find monetary methods but all you got was silly material on light hearted stuff that wouldn't put a dime into your account. Thankfully, it doesn't have to be that way anymore. Introducing: Profiting From 2.0 Websites In this well explained, thorough ebook you will learn hidden facts such as: * Why blogs are the weapon of choice for today's Internet marketers * Tips for building a successful blog- publicity methods that are free of charge * Social Bookmarking- How to wield it effectively like a marketing rapier that pierces the competition! * How to utilize social networking sites to know what your prospects want and how to get them to invest without being a turn-off! * Knowing when to use audio, video or podcasting on your blog * Where to get audio, video or podcasting resources And much, much more!
