

Slide Up Ad Generator Script ! Gurantee

[DOWNLOAD HERE](#)

Introducing The Newly-Discovered, Fast, and Customizable Slide-up Ad Creator Slide Up FX - Slide Up Ad Generator Unlike similar products, this way is better because it is fast and provides whatever data you want it to display. In fact, here are some reasons my Slide-up Ad Creator is superior to others: The script is easy to use even for the most technically challenged Can be installed easily without the need of a database Can be installed on unlimited domains Unlimited instances of Slide-up ads can be used on different pages All you have to do is take my script and install it on your webhosting account or server. Run the program and customize it to display whatever data you want. Save the settings, copy the code, and paste it on your web page. After you do this, upload your web page to your web host server. Now, any time someone lands on that page, an ad you created will slide up on the screen. It will look like it is a part of the web page itself. The ad wont be a popup or a hover ad. Instead, the ad will slide up on the screen. This guarantees it will stay there longer and get noticed. If your goal is to increase sales or your opt-in list, placing my script on your web page will accomplish that goal and more. The great part of the slide up ad is it is not a popup or hover ad. It can still be closed if you dont like it there, but the ad will get more attention as it fills up the bottom of the screen. Customizing is the Heart of the Program When you run the program, you will see an Administration Panel. With this panel you can have the program do so many things. It is here that you decide how you want the slide-up ad to look. You can choose between a slide-in animation, fade-in animation, or no animation. You can decide how high you want your ad to appear when it slides up. There is even a way to control the delay of the ad sliding up, and whether to include a slide-up close button or not. Once you have made your choices, all you have to do is click the 'Preview' button to see what the slide-up ad will look like before you decide to place it on your web page. If you like what you see, just click the 'Generate Slide-Up Code Now' button and you will be given code to copy and paste into your web page or pages. The process is so easy that even someone without programming experience can do it. If you are having issues trying to market your product online, you would do well to use my script program. This way you wont have to worry about your customer closing your popup or hover ad. "The proof is in the pudding," as someone once told me. If you want results, youll

get them simply by using my script program. The cost of my script is only \$7. It is kept low so you can take advantage of the program and try it for yourself. Eventually I will raise the price, so you need to take action now, before that happens. If you are not taking action because you are unsure about spending the money, dont forget that slide-up ads dont get closed like hover or popup ads do. You stand a better chance of getting your product noticed. Despite this, you may still be skeptical or concerned, considering you never saw my product before. So what I will do is issue you a promise. I will remove all risk for you, this way you stand to lose nothing. How do you feel about that deal? I will offer you the chance to try my product risk free for 30 days. During that time, if my product doesnt work well on your website or you do not get the results you were looking for; simply contact me for a full refund. I believe in customer satisfaction above everything else, that is why I am offering this Iron-clad, Risk Free, No Obligation, 100 Money-Back Guarantee! Tags: ads, php
