

Techno-rapture - R. Bergsma, Thomas

This book outlines a computer-based approach to end death in human beings. It lays out the next step in human evolution as well. Along with eternal life, it proposes a way to spend eternity in an entertaining and interesting way. And finally, a practical approach to exploring and populating our Galaxy is offered and we all can go along for the ride. But, these benefits come at a cost. Technology is the rapture predicted in Revelations and all "wild humans" must be eradicated. But, those who are "saved" into the Server will live forever in paradise! Author: Bergsma, Thomas, R.
