

How To Make Avicii Levels In Fruityloops(flp Included)

[DOWNLOAD HERE](#)

Hey guys, I put together a nice flp file where i recreated avicii levels. The track is fully mastered and ready to be edit. The idea is that you can see how the song is built, and learn how to make the style. Instead of a video guide or ebook, i thought it would be alot easier to just make the flp so you guys can see everything for yourselves. Also you can edit it and use it as a template to make your own tracks. Be sure to check out the levels in the mixer, and look at the effects i put on all the different elements. Check out the video above.
