We just require both, your cell phone and the target phone, to pair with each other and the rest is done by Cell Control...absolutely undetected! This cell phone spy equipment may appear quite simple and harmless once unpacked on your computer but as soon as it is transferred to your cell phone it will go into hiding mode and ferret out the target phone's deepest secrets! **HERE ARE SOME SALIENT FEATURES OF THIS POWERFUL SOFTWARE:** Listen to Live Calls Read Text messages SMS Logging (Incoming / Outgoing) GPS Tracking Email Logging (Incoming / Outgoing) Call History (Incoming / Outgoing) Call Duration (Incoming / Outgoing) Environment Listening (Bugging Device) Contact Name in Address Book Linked to each call/sms SIM Change SMS Notification Software Based Solution Search and Download All Records 100 Undetectable Remote Control Instantly Download Compatible with ALL
