CamStudio Screen Capture Software - with Resell Rights: Now YOU Can Enjoy The Benefits of CAMTASIA Without Having To Pay The \$300 Price Tag! I'm sure you've probably heard many of the internet marketing "gurus" recommend Camtasia. Camtasia lets you to make a video of your computer screen with you talking as the audio. Many successful internet marketers use Camtasia extensively - for example, to demonstrate a service or product that they are marketing. What's the problem? Well, it's a bit expensive at \$300! Thankfully, you don't need to pay the \$300! You see, an earlier version of Camtasia, called "CamStudio," was released under GPL, which means you can download it for FREE. So, why doesn't everybody download CamStudio instead of paying \$300 for Camtasia? CamStudio would be fine for most users, except that there are two MAJOR FLAWS with the older CamStudio program... 1. Output Flash videos DON'T WORK in Firefox or Netscape. This is a HUGE problem for internet marketers, who don't want to frustrate users or prevent users from watching their "video" sales letters! Considering just Firefox has had over 200 million downloads, you don't want this happening to your viewers! 2. There's no "redirect to URL" after playing option for your output Flash videos. John Reese says he was the first internet marketer to use this awesome feature in (the \$300) Camtasia. This feature will redirect the viewer of the video to the URL of your choice when the movie ends. So you can make a video demonstrating a product or service and redirect your viewer immediately to the URL to buy! (This greatly increases conversion rates). But the old CamStudio doesn't have this option. Well now those two problems have been fixed. You see, I just managed to get resell rights to a new and improved version called: CAMSTUDIO Internet Marketers Version With CAMSTUDIO Internet Marketers Version, output videos can now be viewed in Firefox AND can be redirected to a custom URL upon the end of the clip!
