'Supalife Progressive House' continues the Supalife line with 5 exceptionally high quality Construction Kits designed for producers of Progressive House. This multi-format feature packed library is your all-in-one solution for cutting edge House production. Producer Eddy Beneteau is back, with 5 blistering Progressive House kits, combining irrepressible groove and swing with boisterous FX and lead lines for a high energy vibe. The addition of numerous vocal hooks and melodies means this pack stands up on its own as much as it does alongside your other Producer Loops libraries. As usual this Producer Loops library is bursting full of features. Read on to find out more!

**MIDI Loops:** Over 80 MIDI loops are included across all five kits, allowing you to use the melodic phrases in this pack with your favourite synths or samplers. Play them back at any tempo or pitch without glitching as these files contain note data only.

**Dry/Wet Versions:** Dry versions of most loops are provided to allow you to create your own FX mix using reverbs and delays of your choice. Or, if you prefer to just drag and drop, the wet/effected versions are ready to use as-is.

**Unlooped Effect Tails:** Ending a phrase with a wet or effected loop presents an interesting problem; how to end without a fadeout? Producer Loops titles neatly sidestep this issue by providing you with unlooped 'tail' versions of certain loops, meaning you can end a phrase with the natural decay of the reverb or delay. Perfect for dropping into epic breaks and creating space in your mix.

**One Shots:** 'Supalife Progressive House' includes a number of one shot samples, both rhythmic and melodic, allowing you to load them into any sampler (hardware or software) and create content to augment the pre-rendered loops in this pack.
